Welcome to Würth Baer Supply's Doellken Edgebanding Stock Program!

With our new program it is easy to find matching Doellken edgebanding for your laminate of choice.

- Laminate brands are listed alphabetically.
- Each brand of laminate is organized by the corresponding laminate manufacturer's pattern number and name.
- Identify the laminate you are interested in finding an edging to match
- Columns across the page identifies the corresponding Doellken pattern number and provide information on the sizes Würth Baer Supply stocks that particular match in.
- Contact Würth Baer Supply to place your order.

We have listed only the most popular sizes by laminate brand.

Würth Baer Supply offers numerous additional edgebanding items and sizes from stock. A more extensive listing of our stock program can be found on pages 21 & 22.

Doellken and **Würth Baer Supply** present the **Dorus®** line of high quality, superior performance adhesives. Typical woodworking applications include edgebanding, soft forming, dowel insertion and numerous other woodworking applications. The following table provides information about our stock program and recommended application.

Type of Adhesive	Base	Viscosity* CPS	Heat Resistance	Recommended Temperature Application Roller	Machine Speed Feet/Minute	Edgebanding Materials						Comments
						PVC	ABS	Veneer	Melamine	Solid Wood	HPL	
HKP 20	EVA (Unfilled)	75,000	90°C	200 - 220°C	30	•	•	•	•	•	•	Unfilled, premium cartridge adhesive for HOLZ-HER edgebanders. Particularly suitable for solid wood.
HKP 21	EVA	90,000	90°C	200 - 220°C	40	•	•	•	•	•		Standard grade, multi-purpose cartridge adhesive for HOLZ-HER edgebanders.
HKP 25	EVA	55,000	90°C	200 - 220°C	30	•	•	•	•	•	•	Premium grade, multi-purpose cartridge adhesive for HOLZ-HER edgebanders. Suited for HPL.
KS 205	EVA	150,000	95°C	200 - 225°C	40	•	•	•	•	•	•	Filled EVA hotmelt with high viscosity for medium machine speeds suitable for automatic edgebanders.
KS 208/2	EVA	130,000	90°C	190 - 210°C	50	•	•	•	•			Filled EVA hotmelt with medium viscosity for fast machine speeds suitable for automatic edgebanders.
KS 217	EVA	55,000	90°C	190 - 210°C	40	•	•	•	•	•	•	Filled EVA hotmelt with low viscosity for medium machine speeds suitable for automatic edgebanders.
KS 224/2	EVA	10,000	75°C	120 - 140°C	30	•	•	•	•			Filled EVA hotmelt with low viscosity for manual operated edgebanders. Long open time.
KS 351	EVA (Unfilled)	75,000	95°C	190 - 200°C	50	•	•	•	•	•	•	Unfilled EVA hotmelt with medium viscosity for BAZ, automatic edgebanders and soffforming equipment. Perfectly suited for contour applications.
DD 060 Doweling	PVA	N/A	N/A	N/A	N/A							For automatic dowel insertion equipment
ND 183/1	Primer	N/A	N/A	N/A	N/A							• A sprayable, waterborne and solvent free synthetic primer that improves difficult to bond materials (i.e. High Pressure Laminate)
MD 041 Assembly	PVA	N/A	N/A	N/A	N/A					•	•	For dovetailed drawer systems, wood-to-wood applications and HPL lamination to particleboard
Riepe Release Agent LPZ/II		N/A	N/A	N/A	N/A							Release Agent for Riepe System

* (Brookfiled) at 200°C (392°F) in MPAS

Würth Baer Supply reserves the right to add or delete stock items without notice. Colors and patterns have been individually matched and cross-referenced using industry accepted standards and procedures. The manufacturer's best efforts have been utilized to ensure acceptable color matches, both between laminates and between laminate and edgebanding. However, color drift may occur in individual paper and resin batches beyond the manufacturer's control. The manufacturer's warranty and liability for bond, color, pattern, surface finish and recommendation matches is limited to only the replacement value of the specific edgebanding material involved. All edgebanding materials should be checked and confirmed for acceptability prior to use.
